

SEE-YA-ROUND

SARANAC LAKE, N.Y.

Builders: Michael Martin & Jay Annis
Saranac Lake, NY Sponsor:
Anonymous

Over the years thousands of kids have climbed in and out of this boat. Sandals, crocs, bare feet, sneakers, snow boots... we see it all. Even with all that See-Ya-Round's finish is as good as it was when she was new.

See-Ya-Round is an impeccably built model of a 1930's era Chris Craft. The fit and finish of this model are as good as anything you will see out on the water. The local folks who put this together are not your average woodworkers. There is a plaque on the boat's dashboard where you can read their names. On a carousel, any bench type seat is called a "Chariot". It could be a plain bench, a sleigh, a sea shell, or a boat.

See-Ya-Round, our Chariot, was built to be fully accessible to people with disabilities. The bench is easily removed to allow wheelchairs to be secured for a safe ride. Without this, some of our local children wouldn't be able to ride. And without this, some of our Senior Citizens wouldn't be able to ride.

You can sit back and watch if you want to, but this carousel was built for everyone. If you want to ride, we'll make it happen.
